SpaceOAR® Hydrogel

Make space for life as usual

Minimizing potential side effects of prostate cancer radiation therapy

SpaceOAR Hydrogel is an absorbable PEG-based hydrogel that temporarily creates space between the prostate and rectum, designed to reduce radiation dose to the rectum to help minimize the side effects of radiation therapy.¹

SpaceOAR Hydrogel is designed to temporarily create space between the prostate and the rectum, reducing the radiation dose delivered to the rectum during prostate radiation therapy which may lessen damage to the rectum.³,⁴

Radiation therapy can be extremely effective in treating prostate cancer, but as with any procedure, there are potential side effects.

The prostate is next to the rectum. Due to the proximity, prostate radiation therapy can unintentionally cause damage to the rectum, which can lead to issues with bowel function.²

More space can mean better quality of life.

✔ Fewer long-term side effects³,⁴
✔ More likely to report maintenance of sexual function⁵
✔ Significantly lower decline in urinary and bowel function³,⁴

What is it made of?
SpaceOAR Hydrogel is a soft gel material that is mostly made of water and polyethylene glycol (PEG), which is commonly used in other medical implants. The material is biodegradable and is designed to be absorbed and leave your body naturally after about 6 months.¹

Where is the procedure performed?
The procedure to implant SpaceOAR Hydrogel is generally a brief outpatient procedure, and can be done in a doctor’s office, hospital or clinic before starting radiation treatment.¹

Is SpaceOAR Hydrogel widely used?
SpaceOAR Hydrogel is now the option of choice for doctors and patients prior to radiation therapy. It is used in leading cancer centers, and with most types of radiation therapy. Many radiation oncologists, urologists and interventional radiologists recommend SpaceOAR Hydrogel for their prostate cancer patients.¹

**“Once I learned more about SpaceOAR Hydrogel, there was no way I was going to get radiation therapy without it.”**
