In this local housing guide, we have identified apartments, condos, houses, hotels, and other accommodations that provide comfortable residences for our patients. The housing options included are listed by their location and convenience to the University of Florida Health Proton Therapy Institute. While there are many other places for you to stay in Jacksonville, we recommend that you first explore availability of accommodations listed here since most have special rates and amenities for our patients.

Please note that we do not arrange housing. This list is merely a guide which we hope you will find useful to locate a suitable place to stay. Please contact the proprietors directly and always tell them you will be treated at the UF Health Proton Therapy Institute to ensure the best rate.

Although we do our best to make sure our current housing information is up-to-date, please note that **prices and listing availability are subject to change, and we recommend that you get a written lease.** Thank you!

APARTMENTS, HOUSES, CORPORATE LEASING, RVS AND MILITARY

Find listings in this section for apartments, condos, housing, corporate leasing companies, RV resorts, and much more. All long term stay units are well-furnished, complete with dishes, utensils, towels, sheets, TV, basic cable, Internet, iron, ironing board, vacuum, toaster, coffee maker, and utilities (often with a cap). Some offer more. These places have been reviewed by a staff member to be clean, cheerful, safe and comfortable, though we can't guarantee it. We rely on patients to help us police this list.

Area One. Near UF Health Proton Therapy Institute

Downtown & historic neighborhoods close to downtown

5-15 minute commute to UF Health Proton Therapy Institute

After decades of neglect, restoration to downtown and its three historic neighborhoods began in earnest less than twenty years ago. Springfield, the last of the three neighborhoods to be fully revitalized, can boast that more than 1,700 of its 1,800 historic homes have been restored, and

hundreds of new homes and apartments are being built. Compared to Historic San Marco and Riverside, both of which are all but finished, Springfield and Downtown are still rough around the edges. Of the 25 or so houses and apartments which house our patients, none are in “apartment complexes,” and they change regularly.

HISTORIC SPRINGFIELD (EST. 1869)

Springfield is Jacksonville’s oldest neighborhood and home of UF Health Proton Therapy Institute. The entire square mile of Springfield is on the National Historic Register. Mostly restored, preserved and renovated, The Historic District runs roughly from 1st Street (downtown) to 12th Street, and nine blocks east from UF Health Proton Therapy Institute’s N. Jefferson Street. The University of Florida Medical School, UF & Shands Hospital, UF Health Proton Therapy Institute, the VA Clinic and Public Health Department sit on a large medical campus in Springfield’s northwest corner.

Most Springfield rentals are within a mile of UF Health Proton Therapy Institute and just a mile or so to downtown restaurants and entertainment, the river, the gym, the sports complex, the main library, etc, which make it a good place to live for many UF Health Proton Therapy Institute and UF & Shands staff. Reasonable rental rates reflect the neighborhood’s residual rough edges and the genuine kindness towards our patients by local residents.

DOWNTOWN

Downtown offers a top symphony, theaters and museums, pro-football and baseball, major medical facilities, excellent universities and a strong business base. It is compact and easy to navigate, though it is cut in two by the St. Johns River, which can be crossed by bridges or water taxis. It is beautiful, day and night. We have found wonderful housing on the Northbank of the river, close to UF Health Proton Therapy Institute and great restaurants.

HISTORIC RIVERSIDE, AVONDALE AND ORTEGA

Riverside and Avondale are two of the best restored and prettiest neighborhoods in Jacksonville. On the river, with beautifully detailed houses, gardens on every street, stately churches and schools and spacious parks, it is in every way pleasant. Riverside is also one of the best downtown areas to eat, shop and pick up groceries. Publix Super Market sits in a small shopping area with a variety of restaurants, coffee shops and services like dry cleaner and barber. All this is just down the street from historic "Five Points," the site of even more restaurants, unique and edgy upscale boutiques, a series of beautiful parks and the St. Johns River.

Ortega is on the St. Johns River just south of the historic Riverside and Avondale areas. The neighborhood is bordered by the St. Johns River on the east, the Cedar River on the north and the Ortega River on the west, making it an "inland island." The neighborhood features early 20th century homes and giant, mature oaks. It is almost all residential, with a tiny square known as "Old Ortega" housing a small collection of restaurants, boutiques and pharmacy. The neighborhood is also home to the historic and exclusive Florida Yacht Club and Timuquana Country Club.

Chelsea Lofts

Located just a couple of blocks from Five Points entertainment district, leave your car behind and walk to unique restaurants, shops, cafes, well-groomed parks, the river, theater, museum and more. The Chelsea Lofts is modern in design and features upscale, loft-style units on three stories.

Area Two. South & East of the St. Johns River

15-35 minute commute to UF Health Proton Therapy Institute

Jacksonville, in terms of square miles, is the largest city in the United States. Fortunately, only a million people live in this large area so, as cities go, it's not overly crowded. The quote "suburbs" of Jacksonville can offer many accommodations patients might be used to. Most of the properties are newer in developed communities. All of the major malls are on the east side of the river including the largest outdoor mall in Jacksonville the "Town Center." If you are a golfer, this is where you want to be. Make sure you look into Deer Creek Country Club and ask about their great monthly membership rate.

30-45 minute commute to UF Health Proton Therapy Institute

Neptune Beach and Atlantic Beach are very close, about 13 miles to the east. The drive can be a quick and easy 20 minutes, but probably longer depending on lights, traffic and time of day. Jacksonville Beach is just a few miles farther south. They are all public beaches that lay next to each other seamlessly. Ponte Vedra Beach is the southern-most in our area and also the most exclusive and private. Visit these areas to walk the beach or boardwalk, enjoy the Sea Walk Pavillion and its many events, fish off the pier or just get a little sand between your toes.

Whether you decide to spend your time living at the beach or taking weekend and day trips out to the beach, it's worth the drive at least once. The beaches are loaded with restaurants, shopping, golfing (Sawgrass) and more. Don't forget your sunscreen and a hat! The sun can be strong in the summertime and year-round.

Area Four. North of UF Health Proton Therapy Institute

Near Jacksonville International Airport

10-15 minute commute to UF Health Proton Therapy Institute

Jacksonville's dynamic and efficient airport is north of UF Health Proton Therapy Institute. This area is also near the cruise ship port, Mayport, The Jacksonville Zoo and Budweiser Brewery. A new outdoor shopping center recently opened off of Airport Drive, on the East side of I-95. A mostly working class area with few frills, the neighborhoods are generally quiet and slower paced than those closer to the city.

There are no current listings at this time.

Other Places to Stay:

Patients occasionally find seasonal condos at WORLD GOLF VILLAGE down by St. Augustine. The commute is 40 to 45 minutes. But, to play at the King & Bear or the Slammer & Squire, some find the drive worthwhile.

RV Parks

There are three RV/camping parks in the Jacksonville area. All are highly rated in general, and by our patients in particular. Pecan Park and Flamingo Lake are the closest to UF Health Proton Therapy Institute and are located about 10-15 miles away. Hanna Park is another possibility located near the beach. In order to stay more than two weeks at Hanna Park, you will need a letter from the doctor explaining the reason for an extended stay and will also need to fill out an extended stay form available from the Park that needs to be approved by the Hanna Park board. This might be something you want to get worked out the first two weeks of your stay so you have no problems after the two weeks are up.

HOTELS & MOTELS

We have developed hotel partners in several key areas of Jacksonville to help you find suitable housing during your days of pre-treatment consultation and scans, as well as for when you come back for a follow-up visit. Some may be suitable for longer stays.

Each of these quality hotels offers favorable rates to our patients, and most are close enough for an easy commute. Each has met our standards for cleanliness, convenience, services and attention to detail, though, again, we can't offer any guarantees. Be sure to let them know you are a patient with the UF Health Proton Therapy Institute to receive the special offers.
