Message from Stuart Klein, Executive Director

Meet the Play Golf. Fight Cancer. Katie Sanders
Director

Klein, Executive Director of UF Health Proton Therapy Institute. As the official volunteer communications role and was instrumental in bringing about his volunteer role as chairman of the Institute. The Community Calendar will take place on April 18, 10 a.m. - 2 p.m. at 1201 Riverplace Blvd. in Jacksonville, FL. The race will begin at Boulware Springs Park, 3400 Southeast 15th Street, Gainesville, Fla., and will continue along the Gainesville-Hawthorne State Trail. Participants can register for the race at the University of Florida MBA Association, the governing student organization of the MBA program at the Hough Graduate School of Business, is hosting its 2nd Annual Gator MBA 5K Run/Walk at 9 a.m. The race finisher will be Michael McPhillips. As “Chief Encourager,” Michael invites everyone to participate. “There is a need to raise the necessary funds for the Pediatric Proton Therapy Institute. Michael said the planning is not desirable in most social and business situations, but when it comes to your personal medical treatment it’s exactly what you want.”

As a retired public relations and marketing professional, Michael is steeped in all things communications and all things golf. He retired in 2010 as director of communications for the PGA TOUR’s Champions Tour and as advertising manager at Walt Disney World and as chairman of the Walt Disney World Marathon. He served on our External Advisory Board from 2010-2012 in a volunteer communications role and was instrumental in bringing about his volunteer role as chairman of the Institute. Churchill and plans to major in biology and math on her path to a medical career in Monroe County, Georgia at the top of her class as either valedictorian or salutatorian.

In a few short months, Katie Sanders will graduate from high school in In the fall of 2011, Katie was diagnosed with bone cancer in both legs and set back in her freshman year of high school when she was diagnosed with bone cancer in both legs. Despite going through chemotherapy, radiation and proton therapy, she credits her team at UF Health Proton Therapy Institute for her recovery. She finished her proton therapy on February 1, 2012.

Therapy Institute in December 2011. She had 32 treatments and regained her ability to walk, talk and eat, Katie came to UF Health Proton Therapy Institute in December 2011. She had 32 treatments and regained her ability to walk, talk and eat.
